# What our clients are saying

We engaged PAC Consulting Australia as a provider of payroll for our new temporary team of sales contractors. We had a need to expand our sales team for the launch of a new product to market and did not have the budget allocable for expanding our head count of "direct" employees for the company; and so wanted to have these contractors on the books of an external partner.

We have found that PAC Consulting have provided our contractors with a seamless way to log their hours, our managers had an easy to use "one touch approval system" which ensured that our contract employees could submit their hours for approval on time and get paid their wages on time.

We would recommend PAC Consulting as a great company to do business with!
